

## Pacific Northwest Native Groundcover Plants

Light	Common name	Scientific Name	Moisture	Winter look	Height	Width	Spread
	Media Manzanita	<i>Arctostaphylos x media</i>		Evergreen	2.5 ft.	15 ft.	Rooting branches
	Kinnikinnick, Bearberry	<i>Arctostaphylos uva-ursi</i>		Evergreen	8 in.	4 ft.	Rooting branches
	Creeping Oregon Grape	<i>Mahonia repens</i>		Evergreen	2 ft.	5 ft.	Underground stems
	Stonecrops	<i>Sedum Sp.</i>		Evergreen	3-6 in.	6-12 in.	Rhizomes/rooted pieces
	Coastal Strawberry	<i>Fragaria chiloensis</i>		Semi-Evergreen	4-6 in.	1-3 ft.	Stolons, runners
	Wild Strawberry	<i>Fragaria virginiana</i>		Deciduous	2-6 in.	1-3 ft.	Stolons, runners
	Common Juniper	<i>Juniperus communis</i>		Evergreen	< 3 ft.	3-9 ft.	Rooting branches
	Hairy Honeysuckle	<i>Lonicera hispidula</i>		Semi-Evergreen	3 ft.	10 ft.	Rambling or climbing vine
	Silverweed	<i>Potentilla (Argentina) anserina</i>		Deciduous	3-10 in.	1-3 ft.	Stolons, runners
	Bog Cranberry	<i>Vaccinium oxycoccos</i>		Evergreen	2-6 in.	1-2 ft.	Rooting branches
	Creeping Snowberry	<i>Symphoricarpos hesperis (mollis)</i>		Deciduous	12--24 in.	1-2 ft.	Rooting branches
	Salal	<i>Gaultheria shallon</i>		Evergreen	4-6 ft.	3-5 feet	Layering/underground stems.
	Low/Cascade Oregon Grape	<i>Mahonia nervosa</i>		Evergreen	2 ft.	4 ft.	rhizomes/clumping
	Inside Out Flower	<i>Vancouveria hexandra</i>		Deciduous	8-16 in.	1-2 feet	Spreading rhizomes
	Wood Strawberry	<i>Fragaria vesca</i>		Semi-Evergreen	4-12 in.	1-3 ft.	Stolons, runners
	False-lily-of-the-Valley	<i>Maianthemum dilitatum</i>		Deciduous	1- 4 in.	2-5 ft.	Aggressive spreading roots/ rhizomes
	Dewberry, Trailing Blackberry	<i>Rubus ursinus</i>		Semi-Evergreen	to 20 in.	to 15 ft.	Trailing branches
	Leafy Mitrewort	<i>Mitellastra caulescens</i>		Semi-Evergreen	6-12 in.	1-3 ft.	Runners
	Littleleaf Miners Lettuce	<i>Montia parvifolia</i>		Semi-Evergreen	6-12 in.	1-2 ft.	Rhizomes and stolons
	Foamflower	<i>Tiarella trifoliata</i>		Semi-Evergreen	6-24 in.	1-3 ft.	Slender, short rhizomes
	Fringecup	<i>Tellima grandiflora</i>		Semi-Evergreen	15-34 in.	1-3 ft.	Short rhizomes, reseeds
	Assorted Ferns			Variable			Clumping or running rhizomes
	Western Bleeding Heart	<i>Dicentra formosa</i>		Deciduous	6-20 in.	2-3 ft.	Spreading rhizomes
	Redwood Sorrel, Oregon Oxalis	<i>Oxalis oregona</i>		Deciduous	2-5 in.	1-2 ft.	Spreading rhizomes
	Palmate Coltsfoot	<i>Petasites palmatus</i>		Deciduous	2-3 feet	3-4 feet	Spreading rhizomes
Piggyback Plant	<i>Tolmiea menziesii</i>		Semi-Evergreen	12-30 in.	1-3 ft.	Trailing w/baby plants on leaves.	
	Vanilla Leaf	<i>Achlys tryphylla</i>		Deciduous	8-16 in.	1-3 ft.	Spreading rhizomes
	Wild Ginger	<i>Asarum caudatum</i>		Semi-Evergreen	4-6 in.	1-2 ft.	Spreading rhizomes
	Bunchberry, Creeping Dogwood	<i>Cornus canadensis</i>		Decid. To Semi	4-8In.	1-3 ft.	Spreading rhizomes
	Twinflower	<i>Linnaea borealis</i>		Evergreen	4-8 in.	1-3 ft.	Trailing, rooting stems
	Western Starflower	<i>Lysmachia (Trientalis) latifolia</i>		Deciduous	4-8 in.	1-2 ft.	Spreading rhizomes/tubers
	Oak Fern	<i>Gymnocarpium dryopteris</i>		Deciduous	to 16 in.	1-3 ft.	Spreading rhizomes
	Starflower Solomon Seal	<i>Maianthemum stellatum</i>		Deciduous	1-2 ft.	1-3 ft.	Spreading rhizomes
	Pacific Waterleaf	<i>Hydrophyllum tenuipes</i>		Deciduous	8-30 in.	1-3 ft.	Spreading rhizomes

The natural ecology of much of the Northwest are forests,  
.... so we don't have a lot of Groundcovers for sun!

~Spreading distances are estimates...plants don't stop growing!
